

Jashvi's Growth Journey

A 12-MONTH TODDLER DEVELOPMENT ROADMAP

Lovingly prepared for:
Jashvi (Age 16-28 Months)

Parents:
Parth & Radha

Timeline:
March 2026 – March 2027

Location:
India

A Personal Note from Your Coach

Dear Parth and Radha,

Every child is a universe unto herself. This plan is built on 20+ years of coaching toddlers across India – from Mumbai apartments to Bengaluru gardens, from joint families in Jaipur to nuclear families in Delhi. What you're doing – being intentional about Jashvi's growth – is the single biggest investment you'll ever make. Let's make these 12 months extraordinary.

This document is not just a plan; it is a keepsake of her becoming. Enjoy every moment.

Understanding Jashvi at 16 Months (March '26)

Before planning forward, let's understand where Jashvi stands today. At 16 months, she is likely exhibiting these traits:

Domain	What She Can Likely Do
 Physical	Walking steadily, beginning to run (wobbly), climbing furniture, stacking 2-3 blocks.
 Cognitive	Recognizes herself in mirror, points to familiar objects, simple cause-effect understanding.
 Language	Speaks 3–10 words, understands ~50 words, babbles with intention.
 Social-Emotional	Strong separation anxiety, imitates adults, shows affection, tantrums beginning.
 Creative	Scribbles with crayons, loves music/rhythm, engages in simple pretend play.

The 3-Phase Framework

We divide the next 12 months into 3 development phases, each with its own focus, activities, and milestones to watch:

Phase 1: "The Explorer"

Months 16–20 (March '26 – July '26)

Theme: Sense It, Touch It, Move It – World is Her Playground

Phase 2: "The Communicator"

Months 20–24 (July '26 – November '26)

Theme: Words Are Power – Finding Her Voice

Phase 3: "The Builder"

Months 24–28 (November '26 – March '27)

Theme: Independence, Imagination & Social Power

🌟 Phase 1: The Explorer (Months 16–20)

March 2026 – July 2026

🏃 Physical Development Activities

At Home:

- **Obstacle Courses:** Arrange pillows, bolsters, and rolled mattresses on the floor. Let her crawl over, around, and through them.
- **Stair Climbing:** Hold her hand and practice climbing up and down one step at a time.
- **Dancing to Indian Beats:** Play Carnatic rhythms or Bollywood nursery songs. Let her sway, clap, stomp.
- **"Fill and Spill" Play:** Give her a steel dabba (tiffin box) and small stones/blocks to put in and dump out.

Outdoors (Morning Park Walks 7–9 AM):

- **Sand/Mud Play:** Use the sandbox daily. Sand play is a powerful sensory-cognitive tool.
- **Swing:** Regular swinging activates the vestibular system (balance + spatial orientation).
- **Water Play:** Fill a small tub with water and give her steel cups. Let her pour and splash.

🧠 Cognitive Development

- **Shape Sorters:** Simple 3-shape sorters. Let her struggle initially—that struggle IS the learning.
- **Stacking & Nesting:** Use kitchen steel bowls or plastic cups. Stacking 4–5 items challenges spatial reasoning.
- **Object Permanence Games:** Hide a toy under a towel while she watches. Ask "Where did it go?"
- **Mirror Play:** Place her in front of a mirror. Name body parts in Hindi and English.

🗣️ Language Development (Bilingual)

- **Name Everything:** Narrate daily life: "Mummy is cutting sabzi – yeh hai tamatar (tomato)."
- **Rhymes Daily:** "Lakdi ki kathi," "Machli jal ki rani," "Twinkle Twinkle." 15–20 minutes daily.
- **Board Books:** Read *Karadi Tales* or *Tulika Books*. Point to pictures and name them.
- **Label Emotions:** "Are you sad? Dukh ho raha hai?" Build emotional vocabulary.

🌟 Phase 2: The Communicator (Months 20–24)

July 2026 – November 2026

🗣️ Language Explosion Activities

- **100-Word Target:** Aim for 75–100 words by 24 months. Keep a vocabulary diary (Hindi + English).
- **Read 3 Books Daily:** Morning, after nap, and bedtime.
- **Expand Her Sentences:** If she says "Ball!", you say "Yes! A RED ball! You want the RED ball?"
- **Puppet Play:** Use simple hand puppets. Children often speak more freely to puppets.

🧠 Cognitive Leap Activities

- **Pretend Play Stations:** Kitchen corner (steel pots), Doctor corner (toy stethoscope).
- **Sorting by Color:** Use colored bangles or bottle caps. "Yahan rakho saari LAAL cheezein."
- **Nature Exploration:** Weekly walks to collect leaves/stones. Make a simple scrapbook.
- **Water Pouring Science:** Different sized cups, funnels, colored water.

🎨 Creative Arts

- **Finger Painting:** Use food-safe paints. Focus on process, not product.
- **Play Dough:** Homemade salt dough (flour + salt + water). Squeeze, roll, poke.
- **Collage Making:** Sticking torn colored paper or dried leaves with glue.

🌟 Phase 3: The Builder (Months 24–28)

November 2026 – March 2027

🧠 Cognitive & Early Academic

- **Shapes, Colors, Numbers:** Play-based exposure to circle/square, 8 colors, numbers 1-10.
- **Memory Games:** Simple pairs game with animal picture cards.
- **"Why" Questions:** Take every "Why?" seriously. "Why does rain fall? Let's think..."
- **Categorization:** Sort mix of fruits and vegetables. "Fruits here, sabzi here."

🗣️ Language Mastery

- **Sentence Building:** Target 2-word sentences by 24 months, 3-word by 28 months.
- **Storytelling:** Look at a picture book and ask HER to describe what's happening.
- **Rhyme Journals:** Keep a book of her favorite songs and made-up words.

❤️ Social-Emotional Mastery

- **Feelings Wheel:** Point to emotions chart daily. "How are you feeling today?"
- **Turn-Taking:** Simple board games or ball rolling.
- **Helping at Home:** Simple chores like watering plants or wiping spills.
- **Grandparent Time:** Regular interaction for cultural rootedness and language.

Nutrition Plan: The Indian Toddler's Power Plate

The Indian kitchen is a nutritional treasure. Aim for variety and traditional wholesomeness.

Time	Meal Type	Indian Options
7:00 AM	Wake-up	150ml warm milk (cow/buffalo)
8:00 AM	Breakfast	Suji upma / Moong dal cheela / Ragi porridge / Poha / Soft idli
10:30 AM	Snack	Banana / Chikoo / Mango / Curd with honey
12:30 PM	Lunch	Dal khichdi with ghee / Rice + dal + mashed sabzi / Paneer paratha
3:00 PM	Snack	Dhokla / Boiled sweet potato / Roasted makhana
5:00 PM	Evening	Whole wheat crackers / Steamed corn / Coconut water
7:30 PM	Dinner	Soft roti with dal / Veg khichdi / Light sabzi (bottle gourd)

Nutritional Focus Points

- Ghee:** 1–2 tsp daily for brain development.
- Ragi:** Excellent calcium source (porridge, laddoo, dosa).
- Paneer & Dal:** Primary protein sources for vegetarians.
- Avoid:** Excess salt/sugar, packaged snacks, raw honey (under 2), whole nuts.

Sleep Schedule: The Growth Architect

Daily Routine (India-Adapted)

6:30–7:00 AM: Wake up (natural light)

9:00–11:30 AM: Active play / Outdoor time (Best window)

12:30–2:30 PM: NAP (Sacred — No disruptions)

4:30–6:00 PM: Outdoor/Park/Grandparents

8:00 PM: Bedtime Routine (Bath → Book → Milk)

8:30–9:00 PM: Lights Out

School & Social Exposure Roadmap

Age	Recommendation	Focus
16–20 Months	No formal school	Weekly playdates, park time, family socials.
20–22 Months	Mother-Toddler Class (Optional)	2 hours, 2x/week. Sensory + music focus with parent.
22–24 Months	Playgroup Exploration	Visit schools. Look for play-based/Montessori.
24+ Months	Playgroup Enrollment	2–3 hours, 3–5 days/week. Peer socialization.

Weekly Activities Calendar

Day	Morning (9–11 AM)	Afternoon (4–6 PM)
Monday	Sensory play (sand/water/dough)	Park walk + swings
Tuesday	Reading + Puzzle time	Playdate / Social visit
Wednesday	Music & Dance session	Nature walk / Garden
Thursday	Art activity (painting/collage)	Grandparent visit
Friday	Cognitive games (sorting)	Swimming / Water play
Saturday	Outdoor adventure (Market/Temple)	Family activity
Sunday	Free, unstructured play	Rest + Family time

Where to Go: Experiences in India

- **Weekly:** Local parks, Sabzi Mandi (Vegetable market for sensory/language), Library.
- **Monthly:** Zoo/Deer Park, Children's Science Museum, Temple/Gurudwara (cultural rooting).
- **Special:** Indian Classical Dance performance, Puppet shows, Festivals (Holi/Diwali).

Screen Time Policy

16–24 Months: 0–15 min/day max (Video calls only)

24–28 Months: 15–20 min/day max (High-quality educational only)

Alternatives: Audio stories (Kuku FM), Physical books, Music playlists.

Monthly Growth Checklists

Track Jashvi's progress month by month. Use these checklists to stay focused on what matters most.

Month 16: March '26

Top Priority: Physical Exploration

Key Activities

- ☐ Obstacle course with pillows
- ☐ Daily park visit (sand play)
- ☐ Simple 3-piece shape sorter

Milestones to Watch

- ☐ Walks steadily without support
- ☐ Climbs onto low furniture
- ☐ Stacks 2-3 blocks

Goals:

-  Language: Labels 3-5 familiar objects
-  Physical: Squats to pick up toy without falling
-  Social: Shows affection to parents

Notes: _____

Top Priority: Sensory Enrichment

 Key Activities

- ☐ Water play with cups/funnels
- ☐ "Fill and Spill" games
- ☐ Dancing to rhythm

 Milestones to Watch

- ☐ Uses spoon (messily)
- ☐ Points to show interest
- ☐ Turns pages of a board book

Goals:

-  Language: Uses gestures + words
-  Physical: Kicks a ball forward
-  Social: Hands you a book to read

Notes: _____

Top Priority: Language Acceleration

 Key Activities

- ☐ Read 3 books daily
- ☐ Narrate all household actions
- ☐ Simple 2-piece puzzles

 Milestones to Watch

- ☐ Says 10+ clear words
- ☐ Identifies body parts
- ☐ Scribbles spontaneously

Goals:

-  Language: Tries to repeat new words
-  Physical: Walks up stairs (holding hand)
-  Social: Engages in simple pretend play (feeding doll)

Notes: _____

Top Priority: Social Exposure

 Key Activities

- ☐ Weekly playdate
- ☐ "Stop and Go" walking game
- ☐ Matching lids to containers

 Milestones to Watch

- ☐ Runs stiffly
- ☐ Throws ball overhand
- ☐ Imitates household chores

Goals:

-  Language: Names pictures in a book
-  Physical: Walks backward a few steps
-  Social: Parallel play near other kids

Notes: _____

Top Priority: Cognitive Building

 Key Activities

- ☐ Color sorting (Red vs Blue)
- ☐ Nature walk collection
- ☐ Tricycle introduction

 Milestones to Watch

- ☐ Follows 2-step instruction ("Pick up toy and give to me")
- ☐ Stacks 5-6 blocks
- ☐ Names 1-2 colors

Goals:

-  Language: Vocabulary expansion (20+ words)
-  Physical: Jumps with both feet (attempt)
-  Social: Shows pride in accomplishments

Notes: _____

Top Priority: Creative Expression

Key Activities

- ☐ Finger painting
- ☐ Play dough (rolling/poking)
- ☐ "What's in the bag?" sensory game

Milestones to Watch

- ☐ Uses 2-word phrases ("More milk")
- ☐ Kicks ball without falling
- ☐ Washes hands (with help)

Goals:

-  Language: Refers to self by name
-  Physical: Squats and stands up easily
-  Social: Notices when others are sad

Notes: _____

Top Priority: Language Explosion

Key Activities

- ☐ Expand her sentences
- ☐ Puppet conversations
- ☐ Walking on a straight line

Milestones to Watch

- ☐ Uses 50+ words
- ☐ Completes familiar rhymes
- ☐ Sorts shapes and colors

Goals:

-  Language: Asks "What's that?"
-  Physical: Pedals tricycle (or moves feet)
-  Social: Defends own possessions ("Mine!")

Notes: _____

Top Priority: Playschool Prep

 Key Activities

- ☐ Visit playgroups/preschools
- ☐ Simple collage making
- ☐ Separation practice (short duration)

 Milestones to Watch

- ☐ Runs well without falling
- ☐ Turns door knobs / handles
- ☐ Verbalizes toilet needs (occasionally)

Goals:

-  Language: Uses simple pronouns (Me, You)
-  Physical: Climbs jungle gym structures
-  Social: Plays briefly with other children

Notes: _____

Top Priority: Independence Skills

Key Activities

- ☐ Self-feeding with spoon
- ☐ Dressing attempts (socks/pants)
- ☐ Storytelling from pictures

Milestones to Watch

- ☐ Uses 2-3 word sentences frequently
- ☐ Builds tower of 6+ blocks
- ☐ Draws vertical line (imitation)

Goals:

-  Language: Vocabulary ~100 words
-  Physical: Throws ball overhead
-  Social: Shows excitement for company

Notes: _____

Top Priority: Imaginative Play

Key Activities

- ☐ Pretend play stations (Shop/Kitchen)
- ☐ Simple memory cards
- ☐ Helping with laundry sorting

Milestones to Watch

- ☐ Engages in role play
- ☐ Matches identical pictures
- ☐ Jumps in place

Goals:

-  Language: Answers simple questions
-  Physical: Stands on tiptoes
-  Social: Understands concept of "mine" & "yours"

Notes: _____

Top Priority: Emotional Vocabulary

Key Activities

- ☐ Feelings Wheel daily
- ☐ "Why" and "What If" questions
- ☐ Sorting big vs small objects

Milestones to Watch

- ☐ Names 4-6 emotions
- ☐ Asks "Why?"
- ☐ Strings large beads

Goals:

-  Language: Uses plurals (cats, dogs)
-  Physical: Catches large ball
-  Social: Comforts others who are hurt

Notes: _____

Top Priority: Early Learning Prep

Key Activities

- ☐ Counting objects 1-5
- ☐ Categorization (Fruits vs Veg)
- ☐ Threading lace cards

Milestones to Watch

- ☐ Identifies gender (boy/girl)
- ☐ Understands size (big/small)
- ☐ Washes and dries hands

Goals:

-  Language: Uses past tense (played, went)
-  Physical: Balances on one foot (1 sec)
-  Social: Plays house/family roles

Notes: _____

Top Priority: Social Integration

 Key Activities

- ☐ Group play activities
- ☐ Complex 3-4 piece puzzles
- ☐ Scissor skills (safety scissors)

 Milestones to Watch

- ☐ Uses 3-4 word sentences
- ☐ Names a friend
- ☐ Copies a circle

Goals:

-  Language: Tells a simple story
-  Physical: Jumps forward 2 feet
-  Social: Takes turns with reminders

Notes: _____

The Coach's 5 SEEDS Framework

After 20+ years, I have distilled toddler development into 5 SEEDS every Indian parent must plant:

S — SAFETY

Secure attachment with you is the root of all growth. When she feels safe, she explores.

E — EXPLORATION

Let her touch, taste, climb, fail, and try again. A messy child is a learning child.

E — ENGAGEMENT

YOUR presence (phone-free) is her greatest stimulant. Eyes on her, mind with her.

D — DIALOGUE

Talk TO her, not AT her. Ask, listen, respond. Language is built in conversation.

S — STRUCTURE

Predictable routines = emotional security = faster growth. Routine is love.

A Word for Parth & Radha

You are not just raising a toddler. You are growing a human. Every time you get down on the floor and play with Jashvi, every time you name a feeling, every time you choose the park over the screen, every time you read one more book at bedtime — you are building her brain, her heart, and her future.

The greatest developmental tool ever invented is not a toy, a class, or a curriculum.

It is YOU. Present. Attentive. Loving. Consistent.

This is your gift to Jashvi — and she will carry it her entire life. 🌸
